Road to Convergent Debian GNU/Linux
Procyberian Systems Distribution
2024/11/24
İstanbul, Türkiye, Dünya

- Android first for mobile development

- Debian server network for big data, ai, and other new areas for convergent development

- We will focus on penetration test and making a Debian GNU/Linux distribution release which is %100 Free Software written by our core team

- Converging Android experience with Debian GNOME desktop experience and making a subsystem of Android for Linux
